SUMMARY

Hello! Firstly, my name is Furkan Karagulle. I am 24 years old and currently residing in Turkey. I graduated from Düzce University with a degree in Computer Programming in 2022. I have been working as a freelance software developer since around 2016. I possess advanced skills in various embedded systems and programming languages.

I am very eager to gain experience in the software field within a corporate environment. My goal is to learn new information from my team members and continually improve myself until I become a valuable contributor to my company. I have confidence in myself and aspire to be a person who adds value to every environment I am in.

WORK EXPERIENCE

FREELANCE DEVELOPER

2016 - Present

- Since 2016, I have been working as a freelance Full Stack Developer.

SOFTWARE SPECIALIST, PROWEB ENGINEERING INTERNET TECHNOLOGIES (INTERN)

07/2022 - 10/2022

- I completed my university internship for a duration of 3 months. It provided me with knowledge in Flutter and Java.

QUALITY CONTROL PERSONNEL, TOYOTA

12/2018 - 06/2019

- In this industry, I learned what quality is, how it is ensured, how it should be controlled, and how to harmonize with my team members by working for 6 months.

MEDICAL SALES REPRESENTATIVE, ACON ILAC

10/2017 - 07/2018

- Working in this industry has taught me the ways of communicating effectively with people, introducing a product based on the needs of individuals for marketing, and most importantly, being self-confident.

HOBBIES

- My hobbies include boxing (licensed athlete since 2013), playing the guitar, and reading world classics books.
